PROFESSIONAL SUMMARY

Information Technology undergraduate with hands-on experience in backend development, REST API design, caching, and full-stack integration. Skilled in Python, FastAPI, PostgreSQL, Redis, and React, with experience in automated testing and team coordination. Seeking a Software Developer Internship.

INTERNSHIP

Full Stack Development Intern | Infosys Springboard — Virtual Internship 7.0 15 Jul 2026 – 15 Sep 2026

- Implemented FastAPI REST APIs for feature flag evaluation, environment configuration, and targeting rules using Python and PostgreSQL.
- Integrated Redis-backed caching and a Python client with in-memory caching to reduce repeated API requests.
- Led a 5-member subteam, coordinating frontend integration, cross-module testing, and project delivery.

PROJECTS

FlagFlow — Application Feature Management and Release Control System

Python, FastAPI, PostgreSQL, React, Redis, pytest

- Designed a rule-based feature flag evaluation engine supporting user/group targeting, percentage-based rollouts, rule-priority handling, and deterministic hashing for consistent user assignments.
- Implemented Redis cache invalidation on flag and rule updates, alongside per-flag evaluation analytics.
- Validated backend functionality with 131 passing pytest tests covering evaluation logic, targeting rules, cache invalidation, and API endpoints.
- GitHub: https://github.com/BhaveshV23/Feature_Flag_Management_System

DockTech — Intelligent Freight Forecasting & Vessel Decision Support: Smart India Hackathon 2026

Python, FastAPI, React, PostgreSQL, Supabase, pytest

- Built a freight cost calculator and vessel recommendation workflow for bulk cargo procurement and chartering.
- Implemented vessel recommendations based on 4 criteria: cost, risk, turnaround time, and voyage count.
- Generated and validated 259,589 synthetic records across 9 datasets, checking data integrity and cross-dataset consistency.
- Led a 6-member team in module integration and Git/GitHub collaboration.
- GitHub: https://github.com/BhaveshV23/Team-DockTech

EDUCATION

B.E. in Information Technology — Sinhgad College of Engineering, Pune
CGPA: 8.60/10 (upto 4th semester) | Sept 2024 – Sept 2028

SKILLS

- **Languages:** Python, Java, C++, JavaScript, SQL
- **Backend:** FastAPI, Flask, REST APIs
- **Frontend:** React, HTML, CSS, Streamlit
- **Databases & Caching:** PostgreSQL, MySQL, SQLite, Redis
- **Testing & Tools:** pytest, Git, GitHub
